## Marie Curie competencies in spiritual & religious care, Level 1/2

These competencies have been developed with an understanding of spiritual care in its broadest sense. It is acknowledged that spirituality includes whatever gives a person meaning, value and worth in their life. Spirituality and religion are clearly distinguished: religion can be an important part in a person's spirituality but how important, if at all, will depend on the individual. Although spiritual care is traditionally seen as the chaplain's area of expertise these competencies assume that all staff and volunteers can and do provide spiritual care.

**Level 1 & 2 competency** – Understanding the spiritual dimension of care and building communication with patients

Assessment – Oral assessment outside the teaching session.

## **Marie Curie competencies in spiritual & religious care,**

### **Level 3**

These competencies have been developed with an understanding of spiritual care in its broadest sense. It is acknowledged that spirituality includes whatever gives a person meaning, value and worth in their life. Spirituality and religion are clearly distinguished: religion can be an important part in a person's spirituality but how important, if at all, will depend on the individual. Although spiritual care is traditionally seen as the chaplain's area of expertise these competencies assume that all staff and volunteers can and do provide spiritual care.

**Level 3 competency** – Assessing spiritual needs and appropriate referral
