

Meet and Greet Volunteer

Weekends and evenings

Perry Ward, In-Patient Unit, Shrewsbury

Summary: Meet and greet volunteers are often the first friendly faces patients and guests see when visiting or staying on the ward. A warm and reassuring greeting makes our welcome special and is integral to our relaxed home-from-home environment.

Caring is at the heart of what we do, and as a naturally empathetic and approachable individual you'll play a crucial role in providing patients and their loved ones with the best possible experience from the moment they arrive.

Our welcome is so much more than a brief 'hello'. It's all about a personalised welcome based on the needs of our visitors - from showing them the comfy rest areas and toilets, making them much needed brew to sharing the best walks in the grounds if they need some fresh air.

Our support also extends beyond our wards, so if the phone rings you'll also be on hand to answer calls and take messages if staff are unavailable.

Purpose: To provide patients and guests with a warm, friendly and professional welcome and experience when visiting and staying with us and when contacting us via phone.
